PROJECT NAME: Texas City Hurricane Levee Culvert Inspection
SOLICITATION NO: RFP B241010A
RE: ADDENDUM #2

To All Prospective Proposers:

The following information is being provided to aid in the preparation of your RFP submittal(s):

Revised Submission Deadline – Bid Opening:

The proposal opening for RFP #B241010A, Texas City Hurricane Levee Culvert Inspections, designated to be opened on Tuesday, April 16, 2024, at 2:00 p.m. has been revised. The new submission deadline/proposal opening is listed below:

- **Submission Deadline / RFP Opening:** Tuesday, April 23, 2024
Time: 2:00 PM CST

Question #1: *Removal and disposal of debris from culvert cleaning including any testing required for disposal" Followed by qty "10,000" and unit "CY" requesting a unit price. This isn't clear as the total volume of the culverts is 4,471 cubic yards, and they are not full ~ per the original documentation it was understood that this was only for the culverts as indicated not the pool's / ditches leading up to the entrance/ exits of the culverts as described. It is unclear how to answer this field as each culvert has a unit price associated with the removal of sediment, dirt, debris, etc. Typically, we would see this if we were to be cleaning open top ditches / culverts, not enclosed box / round culverts. please advise*

Response: Please review the description of each location on the bid proposal form. Some locations have more than one culvert. The length listed is per culvert at that location. The total volume of culverts is approximately 16,100 CY. Line item 27 is for the removal and disposal of debris from the cleaning operations. An estimated quantity is provided.

If you have any further questions regarding this bid, please address them to the representative listed below, via e-mail at purchasing.bids@co.galveston.tx.us, or contact the Purchasing Department at (409) 770-5371.

Respectfully submitted,
