PROJECT NAME: Highland Bayou Slope Stability

SOLICITATION NO: ITB B211022

RE: ADDENDUM #1

To All Prospective Bidders:

The following information is being provided to aid in preparation of your bid submittal(s):

Question #1: *Missing the following from specs: "Seeding for Erosion Control". Please advise.*

Response: The slope will be sodded. Seeding specifications are not used.

Question #2: *Will owner be providing construction staking?*

Response: The owner will not provide construction staking; however, the owner will provide survey control. Survey Control is attached to this addendum.

Question #3: *Please clarify the location for spoil disposal.*

Response: Contractor shall be responsible for disposal of excess soil. Bid Item #7 has been revised. Revised Bid form is attached to this addendum.

Question #4: *Have the homeowners been notified of the impending construction? Will the owner assist or make contract allowances in the schedule if property owners have objections/concerns during construction?*

Response: The homeowners are aware of the project, however, the County will communicate the construction schedule to the affected homeowners.

Question #5: *Will there be any offsite disposal of the excavation spoils? Or is bid item #7: "Dispose of Soils Directly North of Subdivision" to be used for all excess spoils and overrun if necessary?*

Response: Bid Item #7 has been revised. Contractor shall be responsible for disposing of excess soil. Revised Bid form is attached to this addendum.

Question #6: *No item for water control and cofferdam construction*

Response: A cofferdam should not be needed. Slope is to be regraded from Average Normal Water Surface (0.64 ft-msl) to top of slope.

Question #7: *The item referring to sod, does that include topsoil, pegs/staples?*

Response: Yes.

Question #8: *There is no item for water control. Cofferdams to enable slope construction.*

Response: See response to Question #6.

As a reminder, all questions regarding this solicitation must be submitted in writing to:
